

The International Society for the Scholarship of Teaching & Learning (ISSOTL) serves faculty members, staff, and students who care about teaching and learning as serious intellectual work. The goal of the Society is to foster inquiry and disseminate findings about what improves and articulates post-secondary learning and teaching. ISSOTL is organized to

- Recognize and encourage scholarly work on teaching and learning in each discipline, within other scholarly societies, and across educational levels
- Promote cross-disciplinary conversation to create synergy and prompt new lines of inquiry
- Facilitate the collaboration of scholars in different countries and the flow of new findings and applications across national boundaries
- Encourage the integration of discovery, learning, and public engagement
- Advocate for support, review, recognition, and appropriate uses of the scholarship of teaching and learning.
